Full-Stack Developer | Next.js, TypeScript & Web3 Integrations

SKILLS

- **Technical Skills:** TypeScript, Next.js, Tailwind CSS, Node.js, Express.js, MongoDB, PostgreSQL, GraphQL, REST APIs, TanStack Query, Zustand, C++, Django
- **Tools:** Git, GitHub, Docker, Supabase, Postman, Figma, GSAP, JWT
- **Languages:** Hindi, English

WORK EXPERIENCE

Full Stack Developer | DashX

October 2025 - Present

- Engineered end-to-end international on-ramp and off-ramp systems with seamless API integration, enabling reliable cross-border transactions.
- Built and scaled Web3-enabled frontend applications with robust, high-performance API integrations.
- Designed and implemented intuitive on-ramp/off-ramp user flows, significantly improving usability and transaction experience.
- Developed scalable, reusable UI architectures using TypeScript, Next.js, and shadcn/ui to accelerate development and maintain consistency.

Freelance Full Stack Developer | Self-employed

February 2025 - Present

- Developed responsive, high-performance websites for clients using modern frontend technologies.
- Integrated REST APIs to deliver dynamic and data-driven user experiences.
- Built clean and maintainable interfaces using Next.js, Tailwind CSS, and shadcn/ui.
- Customized websites based on client requirements with a focus on responsiveness and performance.

EDUCATION

Bachelor of Technology, Computer Science | Guru Gobind Singh Indraprastha University, New Delhi

Aug 2024 - July 2028

- CGPA: 8.5 / 10

PROJECTS

DigiMenu

- Developed a full-stack digital menu platform enabling small restaurants to manage and showcase menus online.
- Implemented secure authentication using JWT with protected routes and role-based access control.
- Integrated TanStack Query for efficient server-state management and caching, with a responsive UI built in Next.js and shadcn/ui.

Conscious India

- Built a full-stack e-commerce platform enabling sellers to list and manage handcrafted products online.
- Implemented secure JWT authentication with protected seller/admin access, and developed REST APIs powering an admin dashboard for CRUD operations.
- Used TanStack Query and Next.js backend capabilities to optimize server-state management and overall performance.

POSITION OF RESPONSIBILITY

Event Lead | Geek Room

April 2025 – June 2026

- Organized and managed hackathons end-to-end, handling coordination and execution.
- Contributed to the development of hackathon websites, improving user experience and functionality.
- Mentored participants during a GeekRoom hackathon, providing technical guidance and project support.
